

# Rammer

## EH12 (4HP) engine

Subaru industrial engines and equipment have earned a reputation throughout the world for high performance and durability in the most demanding applications.

This vibratory rammer is specifically designed for easy, smooth operation. The simplified design requires little maintenance giving you higher productivity and increased availability. This model features a low center of gravity for stability and ease of operation.

Model	RT-70RD
Weight, kg	70
Dimensions (L x W x H), mm	700 x 430 x 1100
Plate Size (L x W,) mm	330 x 270
Impact Cycle, Hz	10 - 10.8
Impact Stroke, mm	40 - 60
Engine	Robin EH12
Output, kw/ps	3/4
Fuel	Petrol
Fuel Capacity	2.5
Carrying Cart	Optional

**Uses:** Compaction of just about all types of soil (including cohesive clay types) in medium and deep layers, trenches, foundations, backfills etc. This machine is ideal for compaction work in confined areas and where high compaction density is required (use on sandy soil is not recommended).
