Rammer

EH12 (4HP) engine

Subaru industrial engines and equipment have earned a reputation throughout the world for high performance and durability in the most demanding applications.

The frame of this vibratory rammer is manufactured by GE Wilson. It is designed to be worked hard in rough conditions.

Model	GTM72
Engine Model	EH12
Impact Force	14KN
Compaction	40-80mm
Plate Depth	340 x 285
Weight (kg)	72
Dimensions (mm)	760x530x1120

Uses: Compaction of just about all types of soil (including cohesive clay types) in medium and deep layers, trenches, foundations, backfills etc. This machine is ideal for compaction work in confined areas and where high compaction density is required (use on sandy soil is not recommended).
