

## Vibratory Roller

### Lombardini (11HP) Diesel Engine

Subaru industrial engines and equipment have earned a reputation throughout the world for high performance and durability in the most demanding applications.

The double drum vibration roller is used to compact all types of soils, asphalt and rockfills on road making and industrial jobs.

Model	GRD800-LD440
Engine Type	Lombardini 15LD440
Power (HP)	11
Weight (kg)	800
Drum Diameter (mm)	650x420
Static Linear Force (N/cm)	54
Centrifugal Force (kN)	25
Frequency vpm (Hz)	3300 (55)
Travel Speed (km/h)	0-3.6
Water Tank Capacity (L)	65

This machine is primarily used for compaction or repair work such as pavements, cycle paths, roads and parking areas.

The roller's kneading action is commonly used as the last process to seal off the surface of roads and pavements.
