Industrial Power Products

Concrete Mixer

EX21 (7hp) engine

Subaru industrial engines and equipment have earned a reputation throughout the world for high performance and durability in the most demanding applications.

The most distinctive benefit of using a concrete mixer is that the mixer can ensure that cement or concrete is blended homogeneously, creating a much better result than mixing manually and helping prevent flaws in the finished cement.

Model	GCM400
Engine	EX21
Power	7HP
Drum Volume, l	400
Output, l	330
Dimensions, cm	195x94x177
Weight, kg	350

Portable concrete mixers are used so that the concrete can be made at the construction site, giving the workers ample time to use the concrete before it hardens.
