Self-Priming Pump: requires no water for subsequent pumping once initial pumping is done, and the pumping capacity is large.

Efficient, economical operation is assured by directly coupled pump. It provides compactness and guarantees that power is not lost.

Water Resisting Qualities are prominent by adopting the mechanical seal made of ceramic-carbon, and the impellers made of special cast iron.

Highly Advanced Robin EX Gasoline Engines which ensure powerful and durable operation, as well as easy maintenance and trouble free operation.
