

K 3000 Wet

A powerful, versatile electric cutter with wet cutting kit and possibility to equip with Vac attachment. Perfect for cutting jobs indoors with a minimum of dust and slurry. Unlike other electric cutters, the blade rotates forward, cutting into the material efficiently and with a minimum of effort on the user. The K 3000 Wet also has Elgard™ that warns of an approaching overload. Now improved with a spray guard and a lighter bladeguard than it's predecessor.

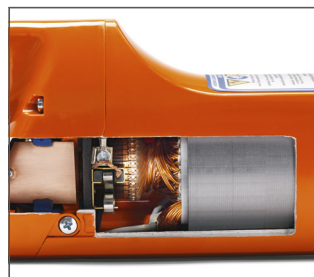

WET CUTTING CAPABILITY, INDOORS AND OUTDOORS

The K 3000 Wet enables convenient, dust-free cutting indoors.

INTEGRATED REGULATOR

K 3000 Wet has an integrated regulator that controls the water volume, ensuring a constant flow to the blade. The amount of water is sufficient to bind the dust without creating an excess of water.

ELGARD™

The advanced electronic overload protection - varies the rotation speed to warn of approaching overload.

PULLING ROTATION

Pulling rotation reduces the risk of sticking and kickback.

Features

- Electronic Softstart provides starting with normal, slow acting fuses.
- Powerful, versatile electric cutter.
- Can be equipped with Vac attachment for dry cutting.
- Generous distance between the handles improves control and reduces load.
- Elgard™, the advanced electronic overload protection system, varies the rpm rate, to warn the user of an approaching overload.
- Electronic SoftStart™ allows starting with normal, slow-acting fuses.

Technical data

Voltage	230 / 120 / 110 V
Rated current, A	12/15/20 A
Rated input	2700/1800/2200 W
Blade diameter	350 mm / 14 inch
Max cutting depth	125 mm / 5 inch
Weight (excl. cutting equipment)	8.5 kg / 18.7 lbs
Vibrations front handle	3.5 m/s ²
Vibrations rear handle	3.5 m/s ²
Sound power level, guaranteed (LWA)	105 dB(A)
Sound pressure level at operators ear	95 dB(A)
